Texas is a front-runner in computer science and computational thinking! The Houston Parks and Recreation Department received grant funds to purchase computer science maker space kits from Terrapin that included Bee-Bots and a copy of No Fear Coding. Heidi Williams donated her time and aided in the Professional Development.

### No Fear Coding - Computer Science, Coding

So far we have a seen a couple of data structures in Python: strings and lists. They each support several methods, which are variants of functions.. For example, one method of lists is the reverse() method. As the name suggests, it reverses the list (for example the first item becomes the last and vice-versa).

### Branch Codes - Dr. A.P.J. Abdul Kalam Technical University

In my amateurish and perhaps oversimplified view of computer programming I see several different

types of code, and applications of code, that correlate with skill, interest, and competencies. I don't think this was always the case as there was a time when computer science was the domain of the math department.
