### (PDF) Watch Repairing as a Hobby: An Essential Guide for ...

Actual watch repair; when you're having to dismantle whole movements, identify what the problem is, replace / repair parts etc is quite frankly a huge undertaking. To be honest there probably isn't much difference between watchmaker and watch-repairer.

### [question] Watch repair as a hobby : Watches

When I first decided to make a hobby of tearing apart watches I started with a second hand set of tools from the estate sale of a local jeweler that included a few old watches and movements, and then I bought this book, Watch Repairing as a Hobby by D.W. Fletcher.

### Learn watchmaking as a hobby | Omega Forums

A watch movement consists of a train of wheels with power at one end to drive them, and a means of controlling their speed at the other end (Fig. 23). To this is added the motion work and hands to register the wheel train speed on a dial. Fig. 23. Wheel train and balance.

This is probably a stupid question but is it even possible to get into watch making as a hobby? I don't mean simply repairing watches but actually making them yourself. Even the movement. Is it possible with self-learning and without a big budget? I understand that it wouldn't be a weekend project but something that would take years to learn.

## **[Question] How to get into watchmaking? : Watches**

Set up a well lit workspace with a clean, flat surface. For a beginner a kitchen table will do just fine, but as you become more serious you may want to consider a watchbench made specially for repairing watches and a good fluorescent lamp which is easier on the eyes. A watchbench has small built in drawers for all of the tools and parts you are sure to accumulate over time.
